

Nemaha County

Estimated Economic Impact of Agriculture, Food, and Food Processing Sectors

10/8/14

14 agriculture, food, and food processing sectors were analyzed to determine their overall contribution to the Nemaha County economy.¹

These 14 sectors have a total direct output of approximately \$879 million and support 1,885.4 jobs in Nemaha County. Running the model for all 14 sectors simultaneously produces the following results:

Agriculture Contribution in Nemaha Co						
Impact Type ²	Employment	% Employment	Total Value Added ³	% of Gross Regional Product ⁴	Output ⁵	% of Gross Regional Product
Direct Effect	1,885.4	25%	218,852,038.4	38%	878,815,242.0	153%
Indirect Effect	454.7	6%	49,186,047.2	9%	81,118,236.1	14%
Induced Effect	383.7	5%	27,642,921.3	5%	44,595,910.5	8%
Total Effect	2,723.8	36%	295,681,006.9	51%	1,004,529,388.5	175%

As shown in the above table, agriculture, food, and food processing supports 2,723.8 jobs, or 36% of the entire workforce in the county. These industries provide a total economic contribution of approximately \$1005 million, roughly 175% of Gross Region Product (GRP). As noted below in the calculation of Gross Regional Product, imports and institutional sales are subtracted. Therefore, counties that import a relatively large amount of goods and services will have a reduced GRP which may lead to agricultural output being greater than GRP.

Another metric used to calculate the importance of sectors in an economy is their value added as a percentage of GRP. Total value added by the 14 agriculture, food, and food processing sectors is approximately \$296 million, or 51% of the GRP. This indicates that personal income, business income, and taxes generated by these sectors account for 51% of the total economy.

¹ Article on building a contribution analysis in IMPLAN that avoids double counting:

http://www.implan.com/index.php?option=com_content&view=article&id=660%3A660&catid=253%3AKB33&Itemid=70

² Direct, indirect, and induced effects sum together to estimate the total economic contribution in the state. **Direct effects** capture the contribution from agricultural and food products. **Indirect effects** capture the economic benefit from farms and agricultural businesses purchasing inputs from supporting industries within the state. **Induced effects** capture the benefits created when employees of farms, agricultural businesses, and the supporting industries spend their wages on goods and services within the state.

³ Value added = labor income + indirect business taxes + other property type income.

⁴ GRP = final demand of households + governments expenditures + capital + exports - imports - institutional sales.

⁵ Output = intermediate inputs + value added.

The following tables document the overall summary numbers of the model, top industries affected by employment and output, and a listing of all industries that were analyzed.

In the top ten by employment, Animal production, except cattle and poultry and eggs is the top employer in the agriculture industry with 470.9 employees. This table also shows the amount of jobs that are created by the agriculture industry in Nemaha County.

Description	Total Employment	Total Output
Animal production, except cattle and poultry and eggs	470.9	62,243,623.3
Grain farming	376.0	57,032,196.8
Other industrial machinery manufacturing	291.3	117,940,655.8
Dog and cat food manufacturing	193.4	246,609,518.5
Cattle ranching and farming	158.7	64,838,801.2
Other animal food manufacturing	138.6	204,195,411.2
Wholesale trade businesses	113.1	21,732,721.8
Oilseed farming	87.5	37,241,368.8
Food services and drinking places	81.9	3,886,577.0
Farm machinery and equipment manufacturing	75.2	41,020,566.8

The Dog and cat food manufacturing industry directly contributes approximately \$247 million to Nemaha County's economy. This table also shows how much revenue is generated in other industries by having a strong agriculture industry.

Description	Total Employment	Total Output
Dog and cat food manufacturing	193.4	246,609,518.5
Other animal food manufacturing	138.6	204,195,411.2
Other industrial machinery manufacturing	291.3	117,940,655.8
Cattle ranching and farming	158.7	64,838,801.2
Animal production, except cattle and poultry and eggs	470.9	62,243,623.3
Grain farming	376.0	57,032,196.8
Farm machinery and equipment manufacturing	75.2	41,020,566.8
Oilseed farming	87.5	37,241,368.8
Dairy cattle and milk production	57.7	30,509,637.2
Monetary authorities and depository credit intermediation activities	63.8	21,778,475.9

Below is a summary of all agriculture data with employment levels and output level. These values can tell how many jobs are represented by each agriculture sector and the output they contributed to Nemaha County's economy.

[illegible]

All 105 counties in Kansas have Implan models and agriculture contribution summary. These values do not factor in the retail environment of food sales. Food retail is important, but in order to provide the most accurate picture of what production agricultural and processing contributes to Kansas, the retail sector was omitted.
